TRIBUTE PAGE - CERTIFICATION PROJECT

Objective: Build an app that is functionally similar to
https://tribute-page.freecodecamp.rocks. **Do not copy this demo
project**.

User Stories:

1. Your tribute page should have a `main` element with a corresponding
   `id` of `main`, which contains all other elements
2. You should see an element with an `id` of `title`, which contains a
   string (i.e. text), that describes the subject of the tribute
   page (e.g. "Dr. Norman Borlaug")
3. You should see either a `figure` or a `div` element with an `id` of
   `img-div`
4. Within the `#img-div` element, you should see an `img` element with a
   corresponding `id="image"`
5. Within the `#img-div` element, you should see an element with a
   corresponding `id="img-caption"` that contains textual content
   describing the image shown in `#img-div`
6. You should see an element with a corresponding `id="tribute-info"`,
   which contains textual content describing the subject of the
   tribute page
7. You should see an `a` element with a corresponding
   `id="tribute-link"`, which links to an outside site, that contains
   additional information about the subject of the tribute page.
   HINT: You must give your element an attribute of `target` and set
   it to `_blank` in order for your link to open in a new tab

8. Your #image should use max-width and height properties to resize responsively, relative to the width of its parent element, without exceeding its original size

9. Your img element should be centered within its parent element

Fulfill the user stories and pass all the tests below to complete this project. Give it your own personal style. Happy Coding!

Note: Be sure to add `<link rel="stylesheet" href="styles.css">` in your HTML to link your stylesheet and apply your CSS

TESTS

1. You should have a main element with an id of main.
2. Your #img-div, #image, #img-caption, #tribute-info, and #tribute-link should all be descendants of #main.
3. You should have an element with an id of title.
4. Your #title should not be empty.
5. You should have a figure or div element with an id of img-div.
6. You should have an img element with an id of image.
7. Your #image should be a descendant of #img-div.
8. You should have a figcaption or div element with an id of img-caption.
9. Your #img-caption should be a descendant of #img-div.
10. Your #img-caption should not be empty.
11. You should have an element with an id of tribute-info.
12. Your #tribute-info should not be empty.
13. You should have an a element with an id of tribute-link.
14. Your #tribute-link should have an href attribute and value.

15. Your `#tribute-link` should have a `target` attribute set to `_blank`.
16. Your `img` element should have a `display` of `block`.
17. Your `#image` should have a `max-width` of `100%`.
18. Your `#image` should have a `height` of `auto`.
19. Your `#image` should be centered within its parent.
