PERSONAL PORTFOLIO WEBPAGE CERTIFICATION PROJECT

Objective: Build an app that is functionally similar to
https://personal-portfolio.freecodecamp.rocks. **Do not copy this demo project**.

User Stories:

1. Your portfolio should have a welcome section with an id of welcome-section
2. The welcome section should have an h1 element that contains text
3. Your portfolio should have a projects section with an id of projects
4. The projects section should contain at least one element with a class of project-tile to hold a project
5. The projects section should contain at least one link to a project
6. Your portfolio should have a navbar with an id of navbar
7. The navbar should contain at least one link that you can click on to navigate to different sections of the page
8. Your portfolio should have a link with an id of profile-link, which opens your GitHub or freeCodeCamp profile in a new tab
9. Your portfolio should have at least one media query
10. The height of the welcome section should be equal to the height of the viewport
11. The navbar should always be at the top of the viewport

Fulfill the user stories and pass all the tests below to complete this project. Give it your own personal style. Happy Coding!

Note: Be sure to add `<link rel="stylesheet" href="styles.css">` in your HTML to link your stylesheet and apply your CSS

TESTS

1. Your portfolio should have a "Welcome" section with an `id` of `welcome-section`.
2. Your `#welcome-section` element should contain an `h1` element.
3. You should not have any empty `h1` elements within `#welcome-section` element.
4. You should have a "Projects" section with an `id` of `projects`.
5. Your portfolio should contain at least one element with a class of `project-tile`.
6. Your `#projects` element should contain at least one `a` element.
7. Your portfolio should have a navbar with an `id` of `navbar`.
8. Your `#navbar` element should contain at least one `a` element whose `href` attribute starts with `#`.
9. Your portfolio should have an `a` element with an `id` of `profile-link`.
10. Your `#profile-link` element should have a `target` attribute of `_blank`.
11. Your portfolio should use at least one media query.
12. Your `#navbar` element should always be at the top of the viewport.
